Login Page

- User input with the goal of sending control information and showing information on the main page
- 1 FTR (user)
- 2 DET
- 1 EI (low)
- 1 EQ (low)

The diagram illustrates a login page layout within a browser window. The browser window includes a title bar with navigation buttons (back, forward, home) and a search bar. Below the title bar is a navigation bar with a bus icon and links for 'Login' and 'Sign up'. The main content area is white and contains a blue rounded rectangle representing the login form. Inside the form, there are two input fields labeled 'Email' and 'Password'. Below these is a checkbox labeled 'Remember me'. At the bottom of the form is a 'Log in' button. Below the button is a link that says 'Don't have an account? Sign up!'.

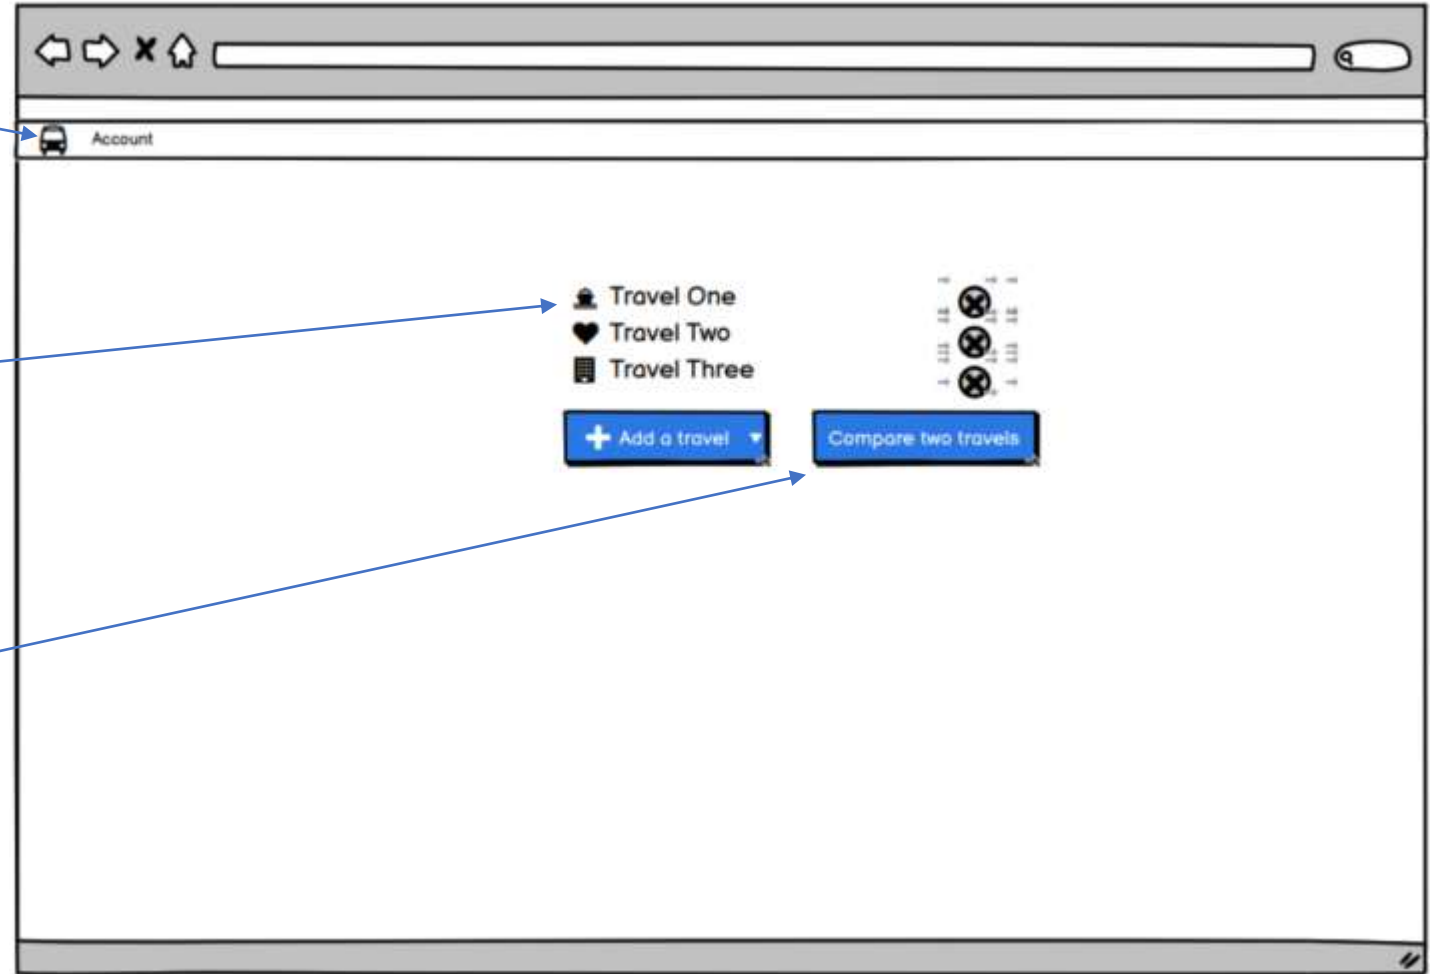

Sign Up Page

- User input with the goal of sending information
- 1 FTR (user)
- 3 DET
- 1 EI (low)

The image is a hand-drawn sketch of a web browser window. The browser's address bar is at the top, containing navigation icons (back, forward, stop, home) and a search icon. Below the address bar, there is a header area with a small icon and the text "Login Sign up". The main content area of the browser is white and contains a blue rounded rectangle representing a sign-up form. Inside this blue box, there are four text input fields labeled "Username", "Email", "Password", and "Repeat Password" from top to bottom. Below these fields is a white button with the text "Sign Up". The browser window has a grey border and a small icon in the bottom right corner.
